

Task 1: Functional Testing on a Web Page

1. Objective

The objective of this task is to perform manual functional and UI testing on a live web page. The testing verifies whether the web page works according to its expected functionality. Test cases are created, executed, and their results are recorded as Pass or Fail.

2. Website Under Test

Website: Validation Lab – Contact Form

Feature Tested: Contact Form

URL: <https://lab.hakdogan.com/practice/form-contact/>

3. Testing Type

- Manual Testing
- Functional Testing
- UI Testing
- Positive Testing
- Negative Testing
- Input Validation Testing
- Boundary Testing

4. Test Environment

Item	Details
Operating System	Windows
Browser	Google Chrome
Device	Desktop/Laptop
Testing Method	Manual Testing
Application Type	Web Application

5. Test Cases

Test Case ID	Test Description	Test Input	Expected Result	Actual Result	Status
TC-001	Submit form with valid information	Valid name, email, subject and message	Form should submit successfully	Form submitted successfully	PASS
TC-002	Submit empty form	All fields empty	Required-field validation should appear	Validation messages appeared	PASS
TC-003	Enter valid email	test@gmail.com	Email should be accepted	Email was accepted	PASS
TC-004	Enter invalid email	test.com	Email validation error should appear	Validation error appeared	PASS
TC-005	Enter message below minimum length	Short message	Appropriate validation message should appear	Validation message appeared	PASS
TC-006	Enter valid message	Message with required length	Message should be accepted	Message was accepted	PASS
TC-007	Upload attachment	Valid supported file	File should be uploaded successfully	File was uploaded successfully	PASS
TC-008	Click Reset button	Form containing data	All entered data should be cleared	Form data was cleared	PASS
TC-009	Check error messages	Invalid/empty inputs	Error messages should be clear and visible	Error messages were displayed clearly	PASS
TC-010	Check UI elements	Form, labels and buttons	Elements should be visible, aligned and usable	UI elements worked correctly	PASS

6. Test Execution Summary

Metric	Result
Total Test Cases	10

Metric	Result
Passed	10
Failed	0
Not Executed	0
Bugs Found	0

Overall Result

Testing Status: PASS

Overall Result: All 10 test cases passed successfully. No functional or UI defects were identified during testing.

7. Bug Report

No Bugs Found

During the testing process, **no bugs or defects were identified.**

All tested functionalities behaved according to the expected results.

Total Bugs: 0

8. UI Testing Results

ID	UI Check	Result	Result
UI-001	Check form layout	Form was properly aligned	PASS
UI-002	Check field labels	Labels were clear and readable	PASS
UI-003	Check input fields	Fields were visible and usable	PASS
UI-004	Check input fields	Buttons were visible and functional	PASS
UI-005	Check error messages	Error messages were clear and visible	PASS
UI-006	Check page responsiveness	Page displayed properly	PASS

Success toast: Contact request sent with Screenshot 2026-09-07 141607.png.

A screenshot of a contact form with a dark blue background. The form contains the following elements:

- FULL NAME ***: A text input field.
- EMAIL ***: A text input field.
- SUBJECT ***: A text input field.
- MESSAGE ***: A large text area with a minimum character count of 20.
- ATTACHMENT**: A section for uploading files, showing a file named "Screenshot ...141607.png".
- Buttons**: "Send message" and "Reset".
- Validation Result Panel**: A dashed border box containing the text "Awaiting submission."

At the bottom of the form, there is a text label: **LIVE WIDGET - INTERACT FREELY**.

10. Conclusion

The Validation Lab Contact Form was manually tested using functional and UI testing techniques. A total of **10 test cases** were executed, and **all 10 test cases passed successfully**.

The testing covered valid and invalid inputs, form validation, submission, attachment functionality, Reset functionality, error messages, and UI elements.

No bugs or defects were found during the testing process.

Task 2: Bug Report

1. Objective

To find bugs in a web application, reproduce them, take screenshots, and document them using a simple bug report format.

2. Application Tested

Field	Details
Application	Sauce Demo
URL	https://www.saucedemo.com/
Browser	Google Chrome
Operating System	Windows
Testing Type	Manual Testing

3. Bugs Found

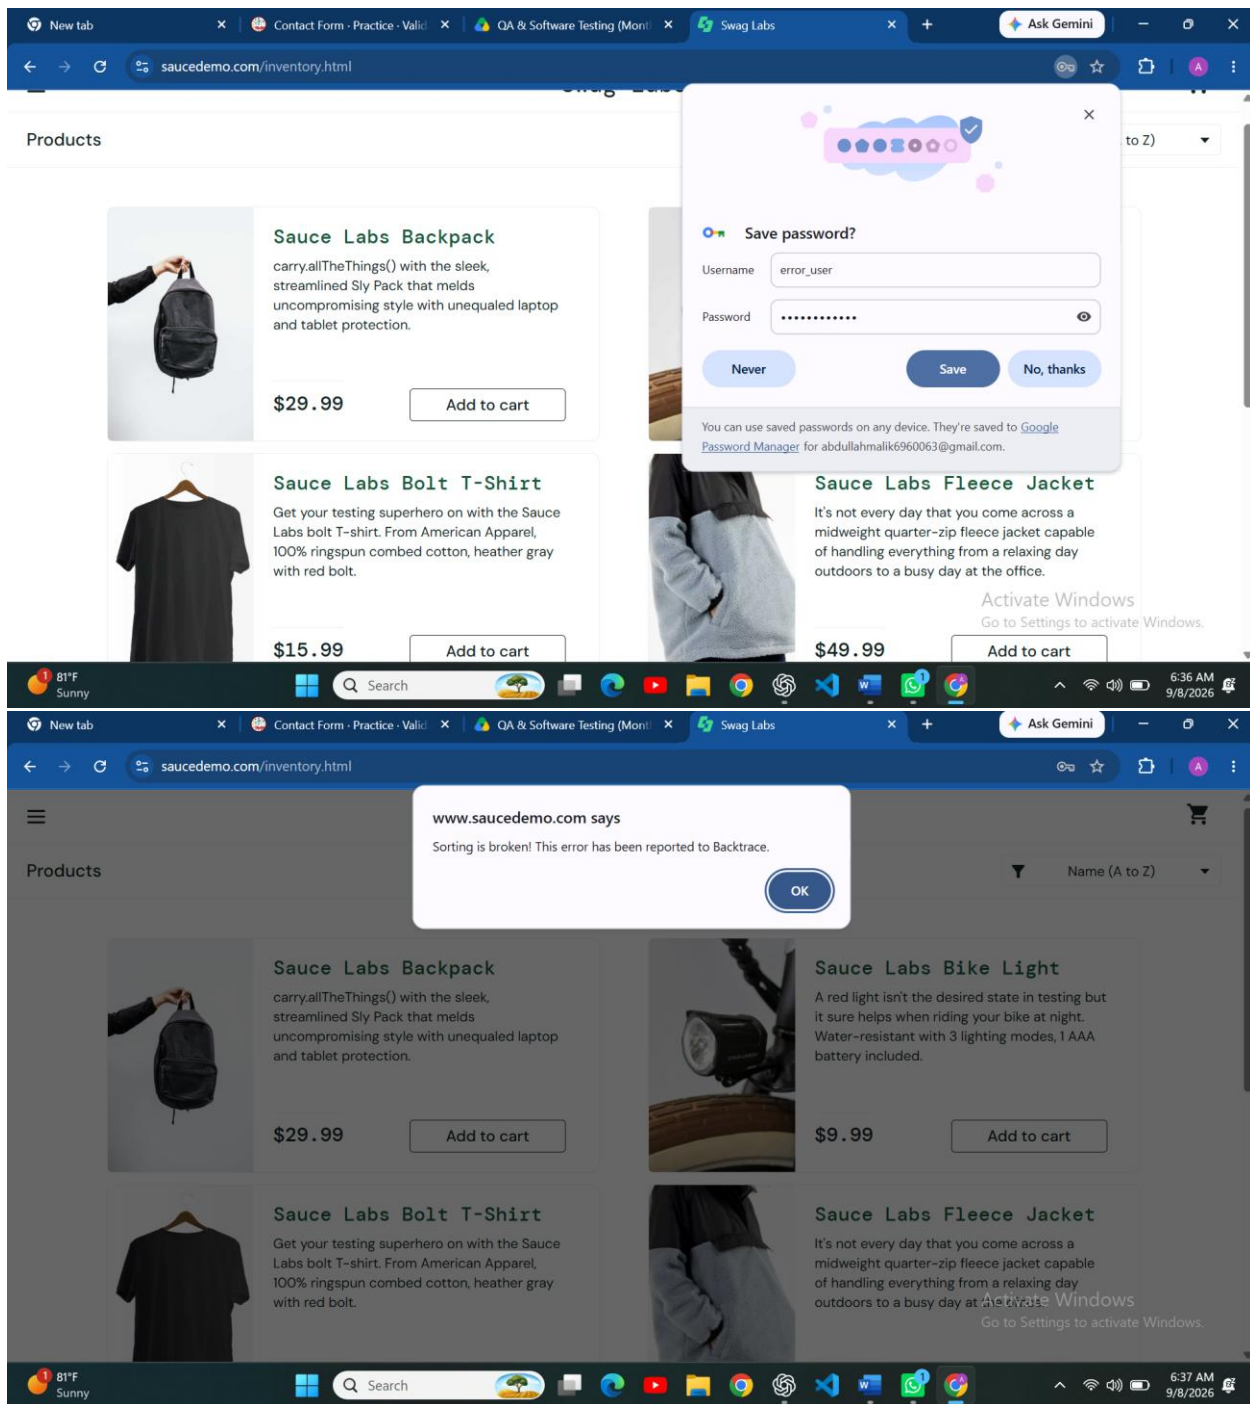

Bug 1

Field	Details
Bug ID	BUG-001
Summary	User cannot add more than two products to the cart
Steps to Reproduce	1. Login to the website 2. Open Products 3. Add two products 4. Try to add another product
Expected Result	User should be able to add multiple products to the cart
Actual Result	User cannot add more than two products
Severity	Medium
Status	New

Bug 2

Field	Details
Bug ID	BUG-002
Summary	Cancel button does not work as expected
Steps to Reproduce	1. Login to the website 2. Add a product 3. Open the relevant section 4. Click Cancel
Expected Result	Cancel button should perform its intended action
Actual Result	Cancel button does not work as expected
Severity	Medium
Status	New
